1968

Ref
AI 21 T46 Jan-June 1950

The Index is compiled from the final edition of THE TIMES. Subscribers to the Index are advised to order this edition for filing purposes.

Provision is made for the *possible* issue of eight editions of THE TIMES, and these are identified by reference to the stars in the top left-hand corners of the front and back pages. Thus **** on the front page and *** on the back denote the first edition, each subsequent edition having a star removed.

Matter appearing in the early editions, but not in the final issue, is indexed from the last edition in which it appeared. Thus, if 4* is shown after the page reference this indicates that the matter appeared in the edition with one star on the front page and three on the back, and *possibly* in the editions preceding it. The position of news may change when fresh material is added; if, therefore, the final edition is not filed some search may be necessary for these changes of position.

In each entry the first numeral indicates the day of the month and the second the page. The letter in italic type indicates the column of the page: for reference purposes the columns of each page are supposed to be lettered from left to right—a, b, c, d, e, f, g. Thus JAN. 23, 5*c* denotes the issue of JANUARY 23, page 5 and column 3.

THE

OFFICIAL INDEX

TO

THE TIMES

APRIL — JUNE

1950

LONDON:
PRINTED AND PUBLISHED BY
THE TIMES PUBLISHING COMPANY, LIMITED
PRINTING HOUSE SQUARE, E. C. 4
ENGLAND

Reprinted by permission of Times Newspapers Limited, London
KRAUS REPRINT
A Division of Kraus-Thomson Organization Ltd.
Nendeln/Liechtenstein
1968

The Index is compiled from the final edition of THE TIMES. Subscribers to the Index are advised to order this edition for filing purposes.

Provision is made for the *possible* issue of seven editions of THE TIMES, and these are identified by reference to the stars in the top left-hand corners of the front and back pages. Thus *** on the front page and *** on the back denote the first edition, each subsequent edition having a star removed.

Matter appearing in the early editions, but not in the final issue, is indexed from the last edition in which it appeared. Thus, if 4* is shown after the page reference this indicates that the matter appeared in the edition with one star on the front page and three on the back, and *possibly* in the editions preceding it. The position of news may change when fresh material is added; if, therefore, the final edition is not filed some search may be necessary for these changes of position.

In each entry the first numeral indicates the day of the month and the second the page. The letter in italic type indicates the column of the page: for reference purposes the columns of each page are supposed to be lettered from left to right—a, b, c, d, e, f, g. Thus JUNE 23, 5*c* denotes the issue of JUNE 23, page 5 and column 3.
